

Subject: pH  
To: Leyden, Don

Don:

I am in the process of finalizing the input I have for NY on pH. I would like to hear/see what you will be presenting on the topic. Could we get together sometime and go over that info?  
Also, I would like to hear the outcome of the analysis of the Henningfield data.  
Thanks.

Cathy

To: Hempfling, Walter

Walter:

You are on my calendar for late Monday afternoon (3/27). This was when we were to talk about development. I will have more to add when I have spoken with all. If you want the time fine - if not, we can get together again later. Please call Jo to let her/me know.

Cathy
